How many children's books did Roald Dahl write?

Why do you think we still love Roald Dahl's books?

He never went to university and described himself as a person 'with one half that has failed completely to grow up'. But writing in his garden shed every day, Roald Dahl filled his books and essays with wise words.

1. On beauty

'A person who has good thoughts cannot ever be ugly... If you have good thoughts they will shine out of your face like sunbeams and you will always look lovely.'

2. On doing your best

'Never do anything by halves... Be outrageous. Go the whole hog. Make sure everything you do is so completely crazy it's unbelievable.'

3. On reading

'If you are going to get anywhere in life you have to read a lot of books.'

4.. On being decisive

'You'll never get anywhere if you go about what-iffing.'

Not judging people by their appearances

Actions have consequences

- The power of books:
- Explore relevant themes like the ones that you just did.

“All the reading she had done had given her a view of life that they had never seen. If only they would read a little Dickens or Kipling they would soon discover there was more to life than cheating people and watching television.”

• Reading teaches you about law and politics and the world.

- Reading can be a form of meditation and relaxation.
- Research shows that reading can actually improve social skills to help you deal with those people.
