

Annual Citizenship Day 2024

'Broadening Horizons' – An outstanding initiative to enable pupils to experience a wide range of activities outside the classroom, develop key skills, enhance SMSC development and cross-curricular links

Being a good citizen is also an important and integral part of our Islamic faith and is embedded into the principles and teachings at AASSG as well as being covered in detail as part of the Personal Development curriculum during Citizenship lessons.

As students explore different themes of citizenship, they are encouraged to feel a sense of pride in belonging to our country, celebrating the achievements and systems of our country and appreciating the part each individual plays in the greater world we live in.

Students recognise the important way in which citizens help the community by getting involved in helping other people, looking after the environment and caring for animals and put into practice these teachings by participating and organising events that help the local and international community.

Each year AASSG students have the opportunity to participate in the annual *Citizenship Day*, which is dedicated to empowering students and providing an hands on opportunity to experience the theory of the citizenship curriculum through carefully planned and collaborated activities with local and national organisations that specialise in Citizenship Programmes. This year, AASSG are once again excited to share our programme for our 2024 Citizenship Day on Friday 18th October.

Year	Citizenship Curriculum Link	Activity	Information
7	Good Citizens within the local community:	Nelson's Trust Community Garden Project	https://www.nelsontrust.com/common-ground-community-garden/
