

**BULLY FREE  
ZONE**

# Change

By SI

Night turns to day,  
Day turns to night,  
We change overtime.

Our souls are bright,  
Always right,  
Make your light be in sight.

Bullying affects.  
What did they project?  
People like you need to show more respect.

Be an upstander,  
Put the bully in their place.

Don't be a bystander,  
That's just a waste.

Instead of bullying others because of their views,  
Maybe the true person who needs the change is you.

Let's Stop Bullying
